

THE PAWS PACK

WHY CHOOSE US TO TRAIN YOUR DOG?

The Paws Pack trains using their minds and their hearts. We use the method of 'POSITIVE REINFORCEMENTS' to teach your puppy how to behave in your home environment. We work on making your puppy a confident learner and enhancing the bond between the two of you. We do not use any kind of force to train your dog, and the entire training process takes place in front of the owner. Training with us is fun. Every training session is punctuated with games, cuddles and hugs. We ensure your dog looks forward to each session, just as he looks forward to his daily exercise. We use rewards, and LOTS of praise, instead of constant punishment to teach your dog everything, ranging from BASIC OBEDIENCE COMMANDS to TOILET TRAINING, SEPARATION ANXIETY, and FOOD AGGRESSION ETC.

The Paws Pack believes in 'Individual Differences'. All dogs are different, and these differences are based on breeds, genetics, what they may have inherited from their parents etc. It is important to recognize these differences and train your dog accordingly. We prepare a training program that is specific to your dog. We treat him like our very own 'Celebrity', because we know how much he means to you.

The Paws Pack believes in 'Involvement'. We work on creating a bond between you and your Pet. Owning a pet is a commitment for a good 13-15 years of your life. And calling in a trainer from The Paws Pack is ensuring that this experience is the best. We require the owners to be present at every session and teach the owners to train the dog. Sessions are fun, informative and helpful. You will never find yourself complaining, "My dog only behaves when the trainer walks in!!"

The Paws Pack believes in 'Overall Development'. We believe that a well-trained dog is the one that excels in all spheres. We teach them a number of tricks and commands so they learn the art of association and start thinking for themselves. This works out great as a mental exercise. Each trick that a dog learns to do is like solving a jigsaw puzzle for him. Besides this, we also concentrate on getting your dog ready for life experiences: socializing with other dogs, car journeys, new people, veterinary visits, sights and sounds, etc. Through training we also work on any particular behaviour issue that he may exhibit (excessive barking, separation anxiety, fear aggression etc.) Finally, through your dog's life we will always be there for any help or support, long after the training is complete.

OUR MISSION IS TO HAVE A HAPPY DOGS AND HAPPY FAMILIES!
